Skills

Technical Skills
C#, C/C++, Java, RESTful API, JavaScript, HTML, CSS, SQL Server, Entity Framework Core, Git, GitHub, Docker, Azure, Postman, Software Testing

Soft Skills
Communication, Teamwork, Problem-solving

Honors & Awards

2022 - 2025
Outstanding student for three consecutive years.

2024
First Prize - Database Design Champion 2024

2024
Third Prize - March 2024 Individual Programming Competition

2024

Objective

Results-driven Fullstack Developer with experience developing and testing enterprise web applications using ASP.NET Core, Angular, SQL Server, and Git. Built multiple full-stack projects and contributed to healthcare management systems during internship. Passionate about software engineering, problem-solving, and delivering reliable solutions that improve user experience and business efficiency.

Work Experience

Fullstack Developer March 2026 - Present

Song Ân Software Solutions Co., Ltd.

- **Full-stack Development:** Developed and maintained HIS, EMR, and Admin Management System modules using Angular, ASP.NET Core, and SQL Server.
- **CRUD & Business Features:** Implemented CRUD operations, search filters, pagination, reusable components, and business-rule validations across multiple modules.
- **Database Management:** Utilized SQL Server for data verification, troubleshooting, query optimization, and backend data analysis.
- **Bug Fixing & Optimization:** Collaborated with developers to investigate defects, verify fixes, and conduct regression testing.
- **Version Control:** Managed source code with Git, including branch merging, conflict resolution, and deployment preparation.

Personal Projectects

Full-stack Developer (ASP.NET Core MVC) *Sep 2025 - Dec 2025*

Driver License Training & Management System

- **Designed & developed** ASP.NET Core 9.0 MVC to build a full-stack driver license training, examination, and driving center management system.
- **Built** online theory exams and traffic simulation modules with automatic scoring, result persistence, and performance tracking.
- **Integrated** VNPAY, MoMo, and PayPal to enable online payments for courses and vehicle rentals, including invoice and QR code processing.
- **Applied** SignalR and OpenAI SDK to implement real-time chat and AI chatbot features for learner support.
- **GitHub repository**: https://github.com/haihtt974/dacn-dtgplx

Full-stack Developer (ASP.NET Core MVC) *June 10, 2025 - June 18, 2025*

Gym Management Web Application

- **Membership and package management**: create, update, renew packages, and track expiration dates for members.
- **Account system & role-based access control**: user registration, login, and management for Admin, Staff, Trainer, and Member roles.
- **Online payments**: integration with PayPal and VNPay for package registration and unpaid package management.
- **Notifications & chatbot**: admins send announcements to users; AI chatbot assists members with package information.
- **Github repository:** https://github.com/haihttt974/courseproject-ltweb-gym

Education

First Prize - October 2024 Individual Programming Competition

Certifications

2025
English Proficiency – B1 Level

2025
Communication and Teamwork Skills

Information Technology *2022 - Present*

Ho Chi Minh City University of Technology (HUTECH)

GPA: 3.39/4.00
